RE: 2023 Neighborhood Street Reconstruction – Canterbury Street, W 51<sup>st</sup> St to W 47<sup>th</sup> St

Dear Property Owner:

The City of Roeland Park would like to provide an update to the start of the construction project on Canterbury St. The city has awarded the project to Kansas Heavy Construction. The construction is anticipated to begin around May 10<sup>th</sup>, weather permitting. The project will be done in two phases with construction occurring between 51<sup>st</sup> St & 48<sup>th</sup> between May-July and construction between 48<sup>th</sup> St & 47<sup>th</sup> St taking place in July & August. Final restoration will be completed in late September.

Construction sequencing will begin with the removal of the asphalt pavement, curb & gutter, and drive approaches. The contractor will add temporary aggregate to the driveway entrances to allow resident access. The next step will be grading and adding the rock base to the street. Once complete, the curbs will be installed with the sidewalk and driveways being installed immediately after. The street base asphalt will be installed after the concrete work. There will be a period when residents will not have access to the drives for up to 3–5 days to allow for proper curing of the concrete. The city will make every effort to allow residents to park near their home during construction. Residents in need of special accommodation may contact the city at 913-722-2600 for assistance.

Please visit the city website at [www.roelandpark.net](http://www.roelandpark.net) for additional updates about the construction project. Updates will also be shared on social media outlets. The city sincerely appreciates the partnership with residents and thanks you for your patience as the city continues to invest in infrastructure improvements.

Please feel free to contact me by phone or email at 913-722-2600 or [dscharff@roelandpark.org](mailto:dscharff@roelandpark.org) should you have any questions or concerns. Residents may also contact Kansas Heavy Construction at 913-845-2121 if interested in obtaining quotes for additional driveway work outside of the city's project scope.

Sincerely,

DONNIE SCHARFF  
DIRECTOR OF PUBLIC WORKS
